

Dr Sharee Hogg

ASSOCIATE

Doctor of Psychology (Organisational)
Executive Master of Public Administration
Bachelor of Psychology
Bachelor of Arts (Psychology)
Diploma in Government
Certificate IV in Training and Assessment (TAE 40110)
Certificate IV in Government Procurement and Contracting

Sharee has experience in understanding and solving complex organisational issues. Sharee has a thorough understanding of how organisational structures and services; staffing levels and performance requirements are established and how this impacts upon the effectiveness of service and operational delivery. Sharee is able to clearly articulate the relationship between strategic and operational requirements and its impact at the macro to micro levels. She is able to expertly translate this from the theoretical into the operational, to ensure that organisational performance is not only maintained, but enhanced. Sharee is also able to interpret organisational cultural and change requirements so as to manage staffing and performance needs. Combined with Sharee's specialist organisational psychology theoretical underpinning, this combination of both practical and theoretical expertise will ensure that you will receive the most appropriate and best value for money service.

SKILLS AND ABILITIES

Sharee has experience in establishing and maintaining high level strategic relationships with industry, community organisations and other educational institutes in order to increase training pathways for students. Having the ability to be able to communicate with key stakeholders, both from within government and across industry, in addition to staff and students, requires the ability to be able to tailor your communication skills to adequately meet your target audience. Sharee's experience ensures that she is able to effectively build positive working relationships and engage and communicate effectively with stakeholders at all levels.
